- Personalized design
- Safe and reliable
- NMPA certification

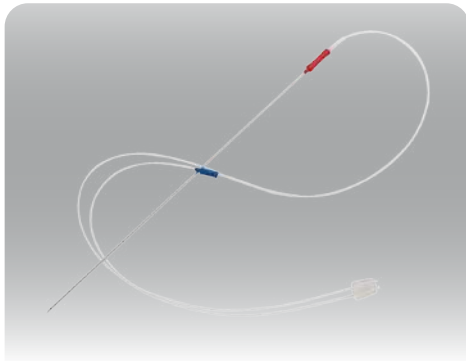

Single-use Sterile Oviposition Needles

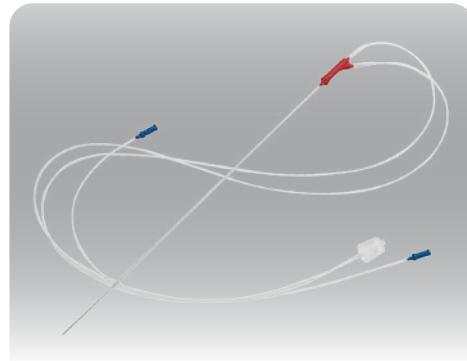

ULTIMATE QUALITY WEGO INTELLIGENT MANUFACTURING

LEADING THE INDUSTRY STANDARD, RADIATION STERILIZATION WITH NO RESIDUE IS SAFER

The first drafting unit of the industry standard YY/T 1698-2020 Medical devices for assisted reproductive technology in vitro - Assisted reproduction aspiration needles

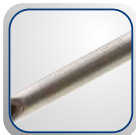

Single chamber ovum retrieval needle

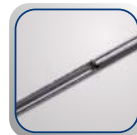

Double chamber ovum retrieval needle

The pen-type needle point is sharp, Reduced tissue damage

Innovative MARK markers, Clear development under B-ultrasound

Special treatment for inner and outer wall of steel needle to reduce surface roughness, inner wall $Ra \leq 0.17$ and outer wall $Ra \leq 0.09$

Change the end of the suction tube to a straight tube, which can be used for recoil puncture

All catheters use super-slip material to reduce friction damage

The handle is integrally molded to guarantee air tightness and stabilize the pressure in the lumen

Product parameters

Model	Gauge	MARK Area Shape And Length	MARK Area And Needle Tip Distance	Puncture Needle Length (cm)	Suction Catheter Length (cm)	Vacuum Catheter Length (cm)	Flush Catheter Length (cm)	Handle Color
Type I (Single Chamber)	16	Punctate 10mm	3mm	35	65	45	—	Blue 
	16				80			
	16				100			
	17	Punctate 10mm	3mm	35	55	45	—	Red 
	17				65			
	17				80			
	17				100			
Type III (Single Chamber)	18	Punctate 10mm	3mm	35	65	45	—	Pink 
	18				80			
	18				100			
	16	Threaded shape 10mm	3mm	35	65	45	—	Blue 
	16				80			
	16				100			
Type II (Double Chamber)	17	Threaded shape 10mm	3mm	35	55	45	55	Red 
	17				65		65	
	17				80		80	
	17				100		100
